EDUCATION

- Adani University** Ahemdabad, India
 - Bachelor of Technology - CSE(AI-ML); CGPA: 8.61* *July 2023- June 2027*
 - Courses: DSA, DBMS, Operating Systems, Computer Networks, Theory of Computation, Foundations of AI, Machine Learning, Deep Learning*

SKILLS SUMMARY

- Languages:** JavaScript, Java, Python, C, SQL
- Frameworks / Libraries:** Node.js, Express.js, React.js
- Databases:** MongoDB, MySQL, PostgreSQL
- Tools & Technologies:** Git, Github, VS Code, Jupyter Notebook
- Soft Skills:** Leadership, Team Work, Public Speaking, Time Management

EXPERIENCE

- Prismetric Technologies Pvt. Ltd.** Gandhinagar, India
 - Software Development Intern* *May 2026 – Jul 2026 (Ongoing)*
 - HRMS Application:** Developing a MERN-based Human Resource Management System to automate employee lifecycle, attendance, payroll, and taxation processes.
 - Backend Development:** Designed RESTful APIs and MongoDB schemas for employee management, attendance tracking, payroll processing, and tax computation.
 - Payroll Features:** Implemented attendance-based payroll generation, overtime calculations, wage history management, and payroll record locking for data integrity.

PROJECTS

- HiVise – AI Companion (Generative AI, Full-Stack Development):** **Repository Link**

Developed a ChatGPT-style AI application using MERN stack and Gemini API for real-time conversational interactions. Implemented chat history management, conversation creation, and RESTful APIs with a responsive React-based interface.

Tech Stack: MongoDB, Express.js, React.js, Node.js, Gemini API, REST APIs
- WanderLust (Full-Stack Web Development):** **Repository Link**

Built a full-stack travel listing platform enabling users to create, explore, and manage travel destinations. Implemented authentication and authorization using Passport.js, integrated Cloudinary for image management, and developed review and rating functionality.

Tech Stack: Node.js, Express.js, MongoDB, EJS, Passport.js, Cloudinary
- Deep Learning-Based Song Language Classification (Deep Learning, Audio Processing):** **Repository Link**

Developed a multilingual song language classification system using MFCC, Delta, and Mel Spectrogram features extracted from 3,012 audio samples. Designed a 3-channel CNN architecture achieving 93.53% test accuracy across English, Hindi, and Japanese songs.

Tech Stack: Python, TensorFlow, Keras, Librosa, NumPy, Scikit-learn

CERTIFICATION COURSES

- AWS Academy Graduate – Machine Learning Foundations:** Completed an industry-recognized AWS course covering core ML concepts, data preprocessing, model training, and evaluation using Amazon SageMaker and Python-based tools.
- AWS Academy Graduate – Cloud Foundations:** Completed an industry-recognized AWS course covering cloud computing fundamentals, core AWS services (EC2, S3, IAM, VPC), security best practices, pricing models, and basic cloud architecture.
- AWS Academy Graduate – Cloud Architecting:** Completed an industry-recognized AWS course focused on designing secure, scalable, resilient, and cost-effective cloud architectures using AWS services, including compute, networking, storage, monitoring, and disaster recovery solutions.
- Google AI Essentials:** Achieved certification in Google AI Essentials, authorized by Google and offered by Coursera, where I learned about Generative AI, Prompt Engineering, and explored various other useful AI tools.

ACHIEVEMENTS

- Finalist at **SRMC '25**, Shrinivasa Ramanujan Mathematics Competition hosted by **IITB and IITM** India, ranked **14th** among around **800+** applicants in prelims.
- Awarded the **GHCI '24** Advancing Inclusion Scholarship by **AnitaB.org** India, which recognizes women and nonbinary technologists committed to fostering diversity and inclusion in the tech field.
- Selected as a Mentee in **Codess.Cafe** from over **2000+** applicants, ranking in the top **2%**, leveraging mentorship to enhance career opportunities and develop skills in the competitive tech field.
